Objective	Passionate Web Developer with strong knowledge of coding, Data Structures and Algorithms, and modern web technologies. Skilled in Python, Machine Learning, database management, and building scalable RESTful APIs. Seeking an opportunity to apply my technical skills to develop efficient software solutions and contribute to innovative projects while continuously learning and improving as a developer.		
Education	Z.P.H.S Kurellagudem		9.7 GPA
	SSC		2020-2021
	SIR C R REDDY POLYTECHNIC, Eluru		73.3
	Diploma in Computer Science and Engineering		2021-2024
	Sri Vasavi Engineering College, Tadepalligudem		8.27 CGPA
	B.Tech		2024-2027
Experience	My Access Private Limited Bhimavaram - 534201 Trainee November 2023 - April 2024 Python Full Stack Development Training Completed Python Full Stack Development training covering frontend, backend, and database fundamentals. Built a Spam Email Detection machine learning model using Scikit-learn, Pandas, and NumPy. Achieved a course completion certificate upon successful completion of training and project evaluation.		
Projects	1. Number Guessing Game Built a full-stack Number Guessing Game using React, Flask, MongoDB, JWT authentication, leaderboard, and AI hints. https://numberguessingversion2-1.onrender.com/ 2. Anime Style E-commerce Developed Anime Street Style e-commerce platform using React, Vite, Context API, Tailwind, Bootstrap, dynamic product APIs. https://animestreetstyle.onrender.com/ 3. Tourist and Travellism Developed AI travel planning platform using React, PHP, MongoDB, JWT authentication, Cloudinary storage, Gemini-powered trip suggestions. https://touristandtravellismfrontendversiontwo.onrender.com/ 4. Portfolio Developed personal portfolio using HTML, CSS, JavaScript with theme switching and integrated email sending feature. https://portfolio-p1zu.onrender.com/ 5. Chat Application Built full-stack realtime chat application using MERN, Socket.io , JWT authentication, Zustand state management, TailwindCSS, Cloudinary deployment. https://chatty-m2s3.onrender.com/ 6. Python GUI Based AI Voice Assistant Developed Python AI voice assistant with face authentication, speech recognition, Gemini API commands, EEL GUI interface. https://www.youtube.com/watch?v=ZeyRsR7yOzI 7.Acne Detection Developed acne detection model classifying mild, moderate, severe acne. deployed with Flask and web UI, planning version two of the application with AI treatment and database features. https://acne-app-detector-using-machine-learning-ye4e.onrender.com/
